

### **We need your old Mobile phones.**

We are currently looking for new ways to raise money and I have been speaking with a company who recycle old mobile phones of any age and condition. For every mobile phone we can collect, they will make a donation back to Starburst charity.

I am sure that everyone has at least one old mobile phone or even several sitting in a drawer at home or at work gathering dust. Well why not donate it to Starburst and help us raise money.

The mobile phones don't even need to be fully functional. They can be in any condition, however the better the condition the larger the donation. We only need the phone and the battery. No chargers, manuals or other accessories are needed.

Why not ask your family, friends and work colleagues for their old mobile phones too.

The more mobiles we get, the more money we raise! It's simple!

Let either Gary or myself know if you have any and we can either pick them up or drop them round to us.

Thank you for any Support you can give with this would be great.

Thanks,

Clare
